

Ali Cheikh

Full-Stack Developer & Product Builder

✉ contact@ali-cheikh.com ☎ +216 90 725 434 🌐 alicheikh.tn 🔗 LinkedIn

Full-stack developer and entrepreneur building production web apps, AI tools, and internal systems end to end. Selected for Live The Residency – Delta (top 15 of 1,500 applicants); co-founded BlooLabb, an AI-powered learning platform for Tunisian youth. Comfortable owning a feature from architecture to deployment, across frontend, backend, and the automation glue in between.

🎓 EDUCATION

International School of Business — Business Administration
Mediterranean Institute of Technology — Computer Science, Year 1

2026 – 2029
2025 – 2026

🗣️ LANGUAGES

English Professional Arabic Native
French Conversational

💼 Professional Experience

IT & Recruitment Systems Administrator May 2026 - Jun 2026
Tunisia Oil & Gas Services

- Built an internal management system for workforce job applications and interview scheduling.
- Managed job postings, LinkedIn presence, and recruitment-related media/communications.
- Administered internal tools and automated project report generation, replacing manual reporting.

Technical Co-Founder — BlooLabb 2025
Live The Residency – Delta Programme (Batch 2)

- Built an AI-powered kids learning platform, selected among 15 finalists from 1,500 applicants.
- Architected the full platform: video delivery, quizzes, AI tutor, content management, and progress tracking.

Full Stack Developer Jun 2024 – Ongoing
LingoLand / Lingoville

- Designed platform architecture and MVP for an edtech product; built dashboards and student enrollment flows.
- Integrated Google APIs and implemented SEO and performance improvements.

Software Developer Intern Jul 2024 – Sep 2024
BinetCom

- Built a public website and internal invoicing system; developed custom dashboards and REST APIs.

Backend Developer Jan 2021 – Jun 2022
i-startup – Co-Work Solutions

- Developed CMS dashboards for managing co-working spaces, migrating off spreadsheet-based databases.
- Automated business workflows with Google Apps Script; built email marketing and client management tools.

🔧 Key Projects

BlooLabb AI Learning Platform 2025
AI-powered learning platform for kids, built with a modern stack and agent-based tutoring.

Translation OCR + LLM Debate System 2025
Experimental OCR pipeline with a dual-LLM debate mechanism, exploring AI-collaboration approaches to translation.

Warehouse OCR System (Energen) 2024 – 2025
Search-and-register OCR system for warehouse management, built with Tesseract.js and Apps Script — reduced manual workload by 80%.

tccards.tn — NFC Business Cards 2025
Digital business card platform reducing paper waste — a sustainable networking solution.

Workforce Management System Tunisia Oil & Gas Services
Internal system for workforce job applications, interview scheduling, and job-posting management.

Other projects that i've built:

- Admin/CRM dashboard** — auth, role-based access, data tables, CRUD over a client's records
- Habit tracking application** — calendar UI, Notification logic, notifications
- API integration project** — AI gateway, messaging (WhatsApp/Telegram/Discord bot), maps
- Scraper / data pipeline** — scheduled scraping, cleaning, and storing external data
- E-commerce storefront** — cart, checkout, inventory sync

</> Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), TailwindCSS, HTML5, CSS3/Sass

Backend: Node.js, Express, REST APIs, PHP

Database: MySQL, Supabase, Firebase, Google Sheets (as lightweight DB)

AI & LLM Tooling: OpenAI & Anthropic APIs, Claude in Excel, OpenRouter, LLM agents, prompt engineering, agent architectures, OpenClaw

Automation: Google Apps Script, Google Sheets automation, workflow & reporting automation

DevOps & Tools: Git, GitHub, Vercel, Cloudflare, CI/CD basics

Networking & Security Basics: Core networking fundamentals, ethical hacking foundations

Other: UI/UX design, SEO, Web performance

🌟 Certifications

GoMyCode — Full Stack JavaScript Bootcamp

IBM — Generative AI for Software Developers Specialization; Generative AI: Introduction and Applications; Generative AI: Elevate Your Software Development Career

Google — AI Essentials Specialization; Prompting Essentials Specialization; Foundations of Business Intelligence

NVIDIA — Introduction to Networking

Microsoft — Introduction to Computers, Operating Systems & Security; Microsoft Applied Skills: Streamline business workflows with AI chat

Vanderbilt University — Prompt Engineering for ChatGPT

University of Michigan — Interactivity with JavaScript

Anthropic — Claude Certifications

Packt — Ethical Hacking Foundations

+ additional Google/IBM/Coursera courses in generative AI, prompting & developer productivity

🔗 Open Source Contributions

Nosey — RSS AI Agent 2026
A zero-cost framework that turns your curated RSS feeds into a daily, AI-ranked digest.

Scape.js — Animated Background Library 2025
Authored and published a lightweight (~5KB) JS library for animated, interactive backgrounds — 18+ shape types, custom image support, full API.

Quillow 2024
Suggestion and integration of github contribution calendar.
