

Ali Cheikh

Systems Administrator & Business Automation Specialist

✉ contact@ali-cheikh.com 📞 +216 90 725 434 🌐 ali-cheikh.com 🔗 LinkedIn

Systems administrator and technical operator with a developer's background — builds the internal tools he then administers. Experience spans HR-tech and recruitment systems, IT administration, reporting automation, and cross-functional project support. Selected for Live The Residency – Delta (top 15 of 1,500 applicants) for co-founding an AI-powered learning platform.

🎓 EDUCATION

International School of Business — Business Administration

2026 – 2029

Mediterranean Institute of Technology — Computer Science, Year 1

2025 – 2026

🗣️ LANGUAGES

English Professional

French Conversational

💼 Professional Experience

IT & Recruitment Systems Administrator

May 2026 – Jun 2026

Tunisia Oil & Gas Services

- Designed and administered an internal management system for workforce (hand-force) job applications and interview scheduling.
- Owned job postings, LinkedIn presence, and recruitment-related media/communications end to end.
- Acted as general IT administrator; automated project report generation, replacing manual reporting workflows.

Technical Co-Founder — BlooLabb

2025

Live The Residency – Delta Programme (Batch 2)

- Co-founded and operated an AI-powered kids learning platform, selected among 15 finalists from 1,500 applicants.
- Owned platform operations: content management, progress tracking, and internal tooling.

Backend Developer & Workflow Automation

Jan 2021 – Jun 2022

i-startup – Co-Work Solutions

- Migrated co-working space management off spreadsheets onto a CMS dashboard.
- Automated recurring business workflows with Google Apps Script; built email marketing and client management tools.

Software Developer Intern

Jul 2024 – Sep 2024

BinetCom

- Built internal invoicing system and admin dashboards; supported internal operations with custom REST APIs.

Full Stack Developer

Jun 2024 – Ongoing

LingoLand / Lingoville

- Built dashboards and enrollment/student-management flows for an edtech platform.
